

MICROLite **WET** Series 2.0

Hi Bright Water Resistant LED

Features

- LEDs in White, Warm White, Red, Blue & Green
- Hi Bright 120° Light Output
- 20' roll can be cut to 3 LED lengths
- Flexible coated PCB ribbon design
- Dimmable with **POWERdim** power supplies
- Self-Adhesive VHB backing
- Manufactured under ISO9001/2000
- Works with **SNAPtrac** kit
- ETL Listed
- Rated life: 15-20 Years
- 3 Year Warranty

Coated water resistant casing

Specifications

- ⊕ Kelvin Color Temp Range: 3000K° - 4500K° - 6000K°
- ⊕ Wattage: 3.75W per linear foot
- ⊕ Light Output: 250L WW / 270L PW per 1ft. length
- ⊕ Voltage: Typical system operating voltage ~12V DC
- ⊕ Materials: Flexible clear water resistant PCB casing
- ⊕ Dimmable: With **POWERdim** power supplies
- ⊕ Available 20' length rolls. Consult manufacture for custom lengths
- ⊕ Size: 3/16 thick x 5/16" wide

Part No. MICWET 2.0 - 4 - 1 - V

3 - Warm White
4 - White
R - Red
B - Blue
G - Green

Number of rolls

S - SNAPtrac
V - VHB tape
